First Quarter 2022 Highlights:

- Q1 2022 organic growth was 4.3%, with strong performance from our Alternatives, Intralinks, and Advent business units.
- Q1 2022 financial services organic growth, excluding the healthcare business, was 5.9%, which represents 93% of our revenues.

- As expected, healthcare revenue declined 15.5% in Q1 2022. With our upcoming launch of DomaniRx, and the interest this new technology has generated, we expect a strong recovery in 2023.
- SS&C generated net cash from operating activities of \$183.5 million for the three months ended March 31, 2022.
- Repurchased 2.3 million shares of common stock in Q1 2022 at an average price of \$75.22 per share for \$170.9 million.
- SS&C reported adjusted consolidated EBITDA attributable to SS&C of \$514.9 million for Q1 2022.
- Completed the acquisitions of Blue Prism and Hubwise.
- In March, SS&C launched GoCentral. This new, more modern fund administration platform amplifies our processing and technology efficiency and provides our clients with higher quality deliverables with increased transparency.

"The tumultuous geo-political landscape and subsequent volatile markets have created a difficult market for SS&C and our clients. SS&C persevered and delivered strong 4.9% adjusted revenue growth, and 5.9% adjusted diluted EPS growth," says Bill Stone, Chairman and Chief Executive Officer. "We successfully closed the Blue Prism and Hubwise acquisitions in mid March, both of which will provide further automation and robust technology for our joint client base. We are already implementing Blue Prism's digital workforce across our businesses to accelerate automation efforts and increase efficiency. As expected, the interest expense and short term operating losses at Blue Prism will have a short term negative effect on earnings."

Operating Cash Flow

SS&C generated net cash from operating activities of \$183.5 million for the three months ended March 31, 2022, compared to \$185.7 million for the same period in 2021, a 1.2% decrease. SS&C ended the first quarter with \$558.1 million in cash and cash equivalents and \$7,588.9 million in gross debt. SS&C's net debt balance as defined in our credit agreement, which excludes cash and cash equivalents of \$145.0 million held at DomaniRx, LLC was \$7,175.8 million as of March 31, 2022. SS&C's consolidated net leverage ratio as defined in our credit agreement stood at 3.48 times consolidated EBITDA attributable to SS&C as of March 31, 2022. SS&C's net secured leverage ratio stood at 2.51 times consolidated EBITDA attributable to SS&C as of March 31, 2022.

Note 4. Reconciliation of Net Income to Adjusted Net Income and Diluted Earnings Per Share Attributable to SS&C to Adjusted Diluted Earnings Per Share Attributable to SS&C

Adjusted net income and adjusted diluted earnings per share attributable to SS&C represent net income and earnings per share attributable to SS&C before amortization of intangible assets and deferred financing costs, stock-based compensation, purchase accounting adjustments and other items. We consider adjusted net income and adjusted diluted earnings per share attributable to SS&C to be important to management and investors because they represent our operational performance exclusive of the effects of amortization of intangible assets and deferred financing costs, stock-based compensation, purchase accounting adjustments, loss on extinguishment of debt and other items, that are not operational in nature or comparable to those of our competitors. Adjusted net income and adjusted diluted earnings per share are not recognized terms under GAAP.
