SS&C GlobeOp Hedge Fund Performance Index

The SS&C GlobeOp Hedge Fund Performance Index is an asset-weighted, independent monthly window on hedge fund performance. On the ninth business day of each month it provides a flash estimate of the gross aggregate performance of funds for which SS&C GlobeOp provides monthly administration services on the SS&C GlobeOp platform. Interim and final values, both gross and net, are provided in each of the two following months, respectively. Online data can be segmented by gross and net performance, and by time periods. The SS&C GlobeOp Hedge Fund Performance Index is transparent, consistent in data processing, and free from selection or survivorship bias. Its inception date is January 1, 2006.

The SS&C GlobeOp Hedge Fund Performance Index offers a unique reflection of the return on capital invested in funds. It does not overstate exposure to, or the contribution of, any single strategy to aggregate hedge fund performance. Since its inception, the correlation of the SS&C GlobeOp Performance Index to many popular equity market indices has been approximately 25% to 30%. This is substantially lower than the equivalent correlation of other widely followed hedge fund performance indices.

SS&C GlobeOp Capital Movement Index

The SS&C GlobeOp Capital Movement Index represents the monthly net of hedge fund subscriptions and redemptions administered by SS&C GlobeOp on the SS&C GlobeOp platform. This monthly net is divided by the total assets under administration (AuA) for fund administration clients on the SS&C GlobeOp platform.

Cumulatively, the SS&C GlobeOp Capital Movement Index for March 2026 stands at 129.47 points, an increase of 0.87 points over February 2026. The Index has advanced 4.92 points over the past 12 months. The next publication date is April 14, 2026.

Published on the ninth business day of each month, the SS&C GlobeOp Capital Movement Index presents a timely and accurate view of investments in hedge funds on the SS&C GlobeOp administration platform. Data is based on actual subscriptions and redemptions independently calculated and confirmed from real capital movements, and published only a few business days after

they occur. Following the month of its release, the Index may be updated for capital movements that occurred after the fifth business day.
