

SS&C Expands Tokenized Investment Capabilities with Digital Cash Settlement

July 7, 2026

Building on live tokenized fund issuance and distribution capabilities, SS&C extends its innovation roadmap to support the next stage of digital investment markets

WINDSOR, Conn.--(BUSINESS WIRE)--Jul. 7, 2026-- [SS&C Technologies Holdings, Inc.](#) (Nasdaq: SSNC) today announced plans to enable digital cash settlement for tokenized investment transactions using regulated forms of digital cash, including stablecoins and tokenized commercial bank deposits.

The announcement builds on the successful launch of SS&C's live tokenized fund issuance and distribution capabilities earlier this year following the acquisition of Calastone in 2025. SS&C already enables asset managers to bring tokenized versions of traditional investment funds to market through the infrastructure and connectivity they already use, helping bridge traditional and digital investment markets.

As interest in tokenized investment products continues to grow, the market is increasingly looking beyond tokenization towards the infrastructure needed to support digital transactions. Having already enabled the issuance and distribution of tokenized funds, SS&C is now extending its innovation roadmap to support the next stage of the digital investment lifecycle.

The planned capabilities will enable digital investment transactions to settle using regulated forms of digital cash, including stablecoins and tokenized commercial bank deposits. Designed to support future atomic settlement, they will help reduce settlement risk, improve operational efficiency and simplify cross-border investment transactions as digital markets continue to evolve.

Together with SS&C's existing tokenized fund issuance and distribution capabilities, these planned enhancements create a pathway for eligible funds across the combined SS&C and Calastone ecosystem to be transacted and settled using digital forms of cash. The capability further extends the practical application of tokenized investment products.

"Tokenized funds are becoming another mainstream investment structure alongside mutual funds and ETFs. As asset managers begin supporting these products in production, they need infrastructure that evolves with them," said **Nick Wright, General Manager, SS&C Global Investor & Distribution Solutions**. "Today's announcement represents another step in helping clients make that transition, building on our live tokenized fund issuance and distribution capabilities with the digital cash settlement infrastructure needed to support the next stage of market adoption. Following the acquisition of Calastone, we have continued to invest in expanding these capabilities, helping clients adopt digital investments with confidence while leveraging the scale, resilience and connectivity they already rely on."

The planned enhancements reinforce SS&C's continued investment in digital innovation following the acquisition of Calastone and demonstrate the company's commitment to delivering practical capabilities to help clients prepare for the future of investment management.

Further details regarding product availability and implementation timelines will be announced as development milestones are achieved.

Forward-looking statements

This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements. In some cases, forward-looking statements can be identified by the use of forward-looking terms such as "anticipate," "estimate," "believe," "continue," "could," "intend," "may," "plan," "potential," "predict," "should," "will," "expect," "objective," "projection," "forecast," "goal," "guidance," "outlook," "effort," "target," "trajectory" or the negative of these terms or other comparable terms. These forward-looking statements are based on certain assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in the circumstances. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions that may cause actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements are subject to and qualified by these cautionary statements and also by the risks described in the company's securities filings with the U.S. Securities and Exchange Commission, and there can be no assurance that the actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected consequences to or effects on us or our business or operations. Forward-looking statements speak only as of the date of this release and the Company undertakes no obligation to update or revise them, whether as a result of new information, future events, or otherwise, except as required by law.
